TO AVOID CITYReturned Rail Commissioner
Reports Unusual Efforts to
Get Cars to Northwest

MOVEMENT INCREASING

Delegation Goes to New York
to Confer With Head of
the N. P. Lines

Cars are being moved across Lake Michigan in lake steamers in the rush to get sufficient cars to the northwest to handle the grain crop, according to Frank Milhollan, member of the state railroad commission, who has returned from the Washington conference with the Interstate Commerce commission.

By moving the empty cars across the lake the least delay in the Chicago terminal district is avoided, Mr. Milhollan said. The first definite evidence of the movement of cars into the northwest came when it was learned by the North Dakota representatives that last week the shipments to Chicago from the east increased from 900 to 1,500 cars a day.

Most of the members of the North Dakota delegation which attended the conference in Washington returned to their homes. A committee composed of O. P. Jacobson, railroad commissioner of Minnesota; James Murphy, railroad commissioner of South Dakota; Mayor I. J. Moe, of Valley City, and a South Dakota banker went to New York to personally solicit the aid and co-operation of Howard N. Elliott, chairman of the board of directors of the Northern Pacific. The Northern Pacific had already presented figures which were used in showing that this line has not even the cars it owns.

Iowa and Kansas come in. After the Interstate Commerce commission had granted a hearing to the North Dakota, South Dakota and Minnesota interests, Iowa and Kansas asked to be heard at the same time. One Kansas representative made the statement that at the present rate of moving the 1920 Kansas wheat crop it would take 28 months to get it to market.

The northwest representatives selected James Murphy, of South Dakota, to make their presentation. The North Dakota delegation are actual farmers and who could state just how, who were in close touch with the situation. Among the North Dakota people who made statements to the commission were W. L. Richards, of Dickinson; George Bruns, of Elliott; and J. M. Anderson, of the Equity society.

STOCK JUDGING
TEAM THANKFUL
FOR FAIR TRIPWrite Appreciation to the Commercial Club for Fargo
Trip

BOOST FOR NEXT YEAR

The boys of the Burleigh county stock judging team, whose expenses to the Fargo fair were paid by the Bismarck Commercial club, have written letters to the business men expressing their appreciation of the opportunity given them. Lester Falkenstein, of Baldwin, in a letter to the club says:

"Owing to the fact that I was helping a neighbor I have delayed writing you to inform you how much I appreciated the trip to Fargo which I enjoyed and will always remember. I was impressed with the fine looking cattle and know now I never saw PAT cattle before. I am sorry we did not win a better place in the contest but hope the training I've had this year will be of benefit next year if I am allowed to compete. Thanking you for the splendid assistance received from the Commercial Club to defray our expenses."

Worth the Cost.
Leland Perkins, of Wilton, wrote "As one of the three boys of the Burleigh County Stock Judging team that went to Fargo, I wish to thank you for your interest in us, and for the money given by the Bismarck Commercial Club to defray our expenses."

"We did not score as high as we had hoped but must say that I had a splendid good-time and feel that it was worth all it cost to go to the State Fair."

"The knowing of good stock when one sees them is, I feel, of great value."

Fine Trip.
Herbert St. Peter, of Regar, said: "I am writing to express my sincere thanks for the interest you have taken and are taking in the boys in the stock judging team of Burleigh county."

"We had a very pleasant and interesting trip and saw some real live stock."

"We are very sorry and very much ashamed of our poor standing. The judging teams from other counties that were there last year were there this year so naturally they had the experience that we were low on."

Sterling Man Here.
Martin Manson of Sterling was in the city on business the other day.

VANDERBILTS SUED
FOR BACK TAXES

REGINALD VANDERBILT

NEW YORK—Suit has been started in the Federal District court, by the United States government, to recover from Reginald Vanderbilt and his brother, Frederick W., additional income taxes for the year 1915, which, it is alleged, are due from both defendants. Reginald's indebtedness is placed at \$34,625.

CONFERENCE TO
DECIDE STATE
LAWSUIT PLANWorkmen's Compensation Bureau Expected to Plan
Resistance of Suits

MINIMUM WAGE ATTACKED

A conference of state officials on the state's course of action in the suits filed by two telephone companies and the North Dakota Laundrymen's association to restrain the workmen's compensation bureau from putting into effect minimum wage rules for women promulgated to become effective Aug. 16, was expected to be held today.

S. S. McDonald, the one actual commissioner of the bureau, because of the discharge of J. J. Weber and the failure of the Governor to appoint a second man to represent employers on the commission was served with notice of the suits late yesterday.

Three Appeals Filled.
Three appeals from minimum wage rules of the bureau were filed with Charles J. Fisher, clerk of the district court, yesterday afternoon. The firms making the appeals are The North Dakota Laundrymen's Association, The North Western Telephone Co. and the Tri-County Telephone company acting with other smaller companies.

The notices of appeal, directed to the North Dakota Workmen's Compensation, makes appeal from M. D. W. sections 2, 3, 4, 7 and 9 and are made under the provisions of Section 10.

Sixteen in Association.
Sixteen laundries throughout the state, including the Bismarck laundries, are members of the association filing its appeal. Bangs, Hamilton, and Bangs attorneys of Grand Forks, are handling the case for the telephone companies and laundries.

Under the orders of the minimum wage commission a minimum wage for women becomes operative on Aug. 16 in practically all occupations in which women are engaged. The appeals made do not operate to suspend the wage board's orders for a minimum wage.

350 POUNDS IS
WEIGHT OF NEW
TRAFFIC POSTS

Automobile drivers will do well to avoid the new "Keep-to-the-right" signs which the city will soon place on various corners.

The new posts resemble the old ones, but have a conical base, made of concrete, which weighs somewhere around 350 pounds. The new bases will hold the posts in position and prevent any interference of frivolous drivers from damaging the traffic signals by running into them.

FORECAST 1920

CANADIAN CROPS

Ottawa, Canada Aug. 14.—Canada's 1920 wheat crop was estimated by officials of the agricultural department today at 262,338,000 bushels as compared with the final estimate of 262,260,000 last year. The extra crop is expected to reach 198,968,400,000 this year as compared with 394,337,000,000 in 1919. Barley also shows substantial increase. These estimates are based on conditions of the crop July 31.

Sterling Banker Here.
H. E. Wildfang, cashier of the Sterling bank was in the city on business yesterday.

NEW CHARGE IS
FIXED FOR TWO
UTILITY RATESSteam Heat Increase and Electric Increase Ordered by
Railroad Commission

NO FREE CITY LIGHT

Commission Holds That Taking
Free Service by City Puts
Burden on Others

New rates for electricity and steam heat furnished in Bismarck by the Hughes Electric company are ordered by the state railroad commission, in a formal order handed down today. The rates are effective from August 1, 1920.

The order provides that the rates shall be effective for one year and that during the year the company shall keep a full and accurate account of the revenues and expenses of the company and file a full report with the commission each month.

The electric company is ordered to, within two months, meter the electric current supplied to the arch-light system of the city and to meter all and any other service now billed on a flat rate basis. The company also is required to allocate the expenses of the electric and steam heat systems, and to keep accurate records of them, for the commission's use.

New Rates Given.
The case arose before the commission on petition of users of electric and steam service. The new rates ordered represent an increase of one-half cent per kilowatt hour for electricity for lighting; one-half cent for power, one-half cent for cooking, and the first charge for steam heating is increased from 60 cents per 1,000 pounds to 8 cents per 1,000 pounds.

The increases are authorized by the commission on the statement that on basis of present rates and gross earnings as per 1919 and the estimated operating expenses for the coming year based on relationship shown by comparison, the net deficit to income would amount to \$28,954. General cost of operating expenses is increased by insurance, workmen's compensation, taxes and depreciation, the commission says.

The new rates are as follows:
General lighting—for the first 100 kilowatt hours, 11.5 cents per kilowatt; next 100, 10.5 cents; next 100, 9.5 cents; next 100, 8.5 cents; next 100, 7.5 cents; and all over 500 kilowatts, 8.5 cents per kilowatt hour. A minimum charge of \$1.00 per meter per month shall be made, the order specifies.

For city street lighting, lighting of the White Way, 5 cents per kilowatt hour; arc lights, \$5.00 per month per light.

Power—first 1,000 kilowatts, 7 cents per kilowatt hour, next 1,000, 6 cents; next 1,000, 5 cents and all over 3,000 4 cents per kilowatt hour. The minimum charge for motors less than 6 horsepower shall be \$5.00 per month. The minimum charge for motors over 6 horsepower \$1.00 per horsepower per month. Elevator service, \$2.50 per horsepower per month.

Cooking—3 1-2 cents per kilowatt hour, with minimum meter charge of (Continued on Page Three).

WARSAW HEARS
BOOM OF GUNS
AS RUSS NEARBolsheviks Reported Within
Dozen Miles of City in
Some Places

WARSAW, Aug. 14.—The Russians attacking Warsaw have been reported to be within a dozen miles of the city's defenses and are attacking Plonsk within a dozen miles of the Vistula northwest of the Polish capital, according to Friday night's official Polish statement available early today.

Can't Reach City

The roar of the artillery on the battle front could be plainly heard in Warsaw Friday. The Russians have brought up artillery in the region of Radymyn, just south of the Bug. Observers say, however, that the enemy has not yet got in position guns heavy enough to reach this city with their fire. On the northwestern front, along the Bialystok road, the Russians were 21 miles from Warsaw, this morning's newspapers reported.

Warsaw, (Friday, by the Associated Press).—Poland's peace delegation consisting of 16 members, military aides, clerks, etc., prepared late tonight to leave for the battlefront to meet representatives of the Russian Soviet government. Up until a late hour tonight there has been no response from Moscow to a wireless dispatch naming the newspaper correspondents who were to accompany the Polish delegation. Announcement was made at 8 o'clock that correspondents would not be permitted to go to the front unless word allowing them to travel came from the Bolsheviks.

Four of the delegates will be military officers, six will be foreign office representatives, councillors and advisers and six will be diet leaders. Members of the mission are to assemble at 3 o'clock Saturday morning, and it is probable they will start soon afterward toward Siedle. This side of that town the delegation will meet Soviet representatives who will escort the Poles probably to Minsk.

COX LAUNCHES
FIERCE ATTACK
ON OPPONENTSAccuses Republicans of Trickery
in Trying to Defeat the
League of Nations

ALSO REFERS TO SENATORS

Franklin Roosevelt, Speaking in
South Dakota Today, Enters
North Dakota Monday

Chicago, Aug. 14.—Senator Warren G. Harding, Republican nominee for President, will speak at the Minnesota state fair on September 8, it was announced today. The speech is not to be a "partisan-political" one but probably will be on an agricultural topic addressed to Minnesota farmers.

Wheeling, W. Va., Aug. 14.—Governor Cox today opened fire on his Republican opposition charging its leadership with "attempted trickery" of the American people in opposing the league of nations and with conducting a campaign behind a "smoke screen" to secure partisan goals.

That "a powerful combination of interests is now attempting to buy government control" also was asserted by the Democratic presidential candidate, charging that "millions and millions" were being raised in campaign contributions.

Talks to Convention.
The Governor loosed his attack in an address here at the West Virginia Democratic convention. It was the first vigorous assault on the Republicans and was to be followed tonight by another address made to the general public.

Although advocacy of the league of nations which the governor declared was "the greatest movement of righteousness in the history of the world" was the main theme of the Democratic candidate, he also attacked again the "Republican senatorial oligarchy."

The Democrats, he added, present a cause of "constructive, progressive, economic peace in peace" and promised definitely a salary of \$2,000,000 annually in government expenses.

ROOSEVELT IN NORTHWEST
St. Paul, Aug. 14.—Declaring the Republican attitude on suffrage and the league of nations "as clear as mud" Franklin D. Roosevelt, the Democratic vice presidential nominee, last night expressed wonder as to how the Republican attitude on these issues "everywhere" could be maintained in business confidence.

His address at the auditorium here followed a noon address in Minneapolis, where he declared Senator Harding was "trying to syndicate the presidency" a condition under which, he said last night, "a few of the old guard" crowd would get in on the ground floor.

Mr. Roosevelt referred to Senator Harding's position on the suffrage question as indicating the Republican presidential candidate apparently is careful to wait until the last moment before committing himself to any definite policy on an issue.

Referring to divergent interpretations which "two great Republican dailies in New York" placed on Mr. Harding's attitude toward the league of nations, Mr. Roosevelt said:

"Apparently the Republican offer is this: 'You can pay your money and take your choice.'"

In Fargo Monday
Mr. Roosevelt left for Sioux Falls, S. D., where he spoke today. He also will talk at Mitchell and Salem, S. D., returning here Sunday and leaving Fargo, N. D., for an address Monday.

BANKER SHOTS
SELF AT GRAVE
OF HIS CHILDChris Vorlander, Prominent Emmons County Citizen,
Takes His Life

Chris Vorlander, president of the First National Bank of Eureka, Emmons county, ended his life by shooting himself, according to information from that town. Mr. Vorlander was one of the best known bankers of the southern part of the state.

His body was found across the grave of one of his children in the cemetery. By his side was a revolver. A note was found in his home explaining his intention according to The Tribune's informant from Eureka.

No cause for his rash act is given. Mrs. E. R. DeContillon, of Kanson, Minn., and daughter, Beatrice, accompanied by Mr. and Mrs. Carl Vorlander, had arrived in Eureka Wednesday noon from St. Paul by auto and shortly after Mr. Vorlander's body was found. A widow, one daughter and three sons survive.

U. S. ROADS GET
CANADA BOOSTS

Ottawa, Ont., Aug. 14.—The Dominion board of railway commissioners today granted increases in through rates to United States roads in Canada to conform with those recently approved by the Interstate Commerce Commission.

These increases apply to all commodities except coal and coke.

D'ANNUNZIO IN
AN OPEN BREAK
Trieste, Aug. 14.—An open break has occurred between the national council of Fiume and Gabriele D'Annunzio the soldier-poet whose insurgent troops have been in possession of the city for nearly a year.

AGED FATHER SEEKS FREEDOM
GRACE LUSK, LIFE-TERM PRISONERSchool Teacher Who Killed Women, Result of Love Affair, Is
Broken in Health, He Says—Rated Model Prisoner

Milwaukee, Aug. 14.—Owing to the condition of the health of Grace Lusk, the Waukesha school teacher, who was sentenced June 21, 1917 to life imprisonment at Waupun for the murder of Mrs. David Roberts as the sequel of a love triangle, her father, Dr. A. B. Lusk, of Mosinee, began steps today to secure a commutation of her sentence.

In a letter to the Milwaukee Sentinel he stated that unless his daughter is given her liberty soon she will not live long. He said she was suffering from two wounds inflicted on herself and that an acute attack of neuritis experienced during her attendance at the state university was spreading to her entire system and that she is becoming practically helpless.

Dr. Lusk, an aged and broken man, has never given up hope that his daughter would be returned to him and that they would spend his last years together. He states that the members of the state board of control as well as the officers of the prison are in favor of clemency for his daughter. She has been rated as a model prisoner.

Dr. David Roberts, the third person in the triangle was sentenced to the house of corrections for one year for his part in the affair.

WOOL GROWERS
OF MCLEAN IN
ORGANIZATIONFarmers Come From as Far as
65 Miles to Attend Organization Meeting

PURPOSE IS EXPLAINED

Washburn, N. D., Aug. 14.—The McLean county Sheep and Wool Growers association was organized at a meeting held at Washburn Thursday evening. About 20 farmers were in attendance, some coming as far as 65 miles to attend the meeting.

The meeting was called to order by A. L. Norling, county agricultural agent, who explained the reason for calling the meeting and introduced J. W. Haw, of Fargo, secretary and manager of the state federation of the county wool growers associations.

"By preparing the wool in a better shape, organizing a County Association to pool and ship the wool to the State Federation," said Mr. Haw, "we could expect to get better returns as the wool will then be graded and sold direct to the woolen mills."

Every wool grower present at the meeting was in favor of forming a county association and J. E. Schoenewether, of Washburn, was made the president of the association; A. E. Paulson, of Underwood, vice president; C. J. Nelson, of Coleharbor, treasurer; J. A. Shea, of Rossglen, and J. H. Christianson, of Mercer, directors. A. L. Norling, county agricultural agent, was elected by the directors as secretary-manager.

The board of directors decided to ship a carload of wool out of Coleharbor, that being the most central point in the county. The wool will be collected on Monday and Tuesday, August 23 and 24. The association decided to join the state federation and the wool will be shipped to Fargo where it will be graded and sold later on by the state federation. Nine thousand pounds was pledged at the meeting and every member present will try to get all of his neighbors, who are wool growers, to also join and ship with the association.

GRANT EXPRESS
RATE INCREASE
OF \$35,000,000Only Half of What Company
Asked Is Given by Interstate
Commerce Commission

Washington, Aug. 14.—Application will be made soon to the Interstate Commerce Commission, it was expected today, for the authority to increase its rates sufficiently to absorb the wage increases recently granted by the railway labor board.

The new demand, it was said, will be in addition to that of 12 1/2 per cent authorized yesterday. The commission's award yesterday, which, it is unofficially estimated, will add \$35,000,000 to the annual income of the company, did not take into consideration the recent award of increased wages, approximately \$43,000,000.

Milk Rates Up.
Rates on milk and cream under the commission's decision are further increased to correspond with the advance of 20 per cent for transportation of such commodities authorized for the railroads except where there are no competing railroads between the affected points. In the latter case an advance of 12 1/2 per cent is authorized.

Illinois Case Action.
Washington, Aug. 14.—Deciding the application of increased freight rates to Illinois territory the Interstate Commerce Commission ordered today that a 40-percent increase apply between Illinois and Eastern territory and a 35-percent increase on traffic from Illinois to Western points.

HAVE NO SUGAR
FOR 8 MONTHS

Dawson Alaska, Aug. 14.—Arrivals from the head of the Polly river, 200 miles north of Fort Selkirk, bring word that the stores in that district have been out of supplies for a month. They have had no sugar since Christmas. A steamer, however, has just arrived at the head of navigation with ample supplies for next winter.

Here on Business.
W. F. Doenke and family of Washburn were in Bismarck on business yesterday.

Washburn Men Here.
J. E. Epeeth and J. C. Mehlhoff of Washburn were in the city on business yesterday.

Come For Visit.
D. P. Lantieri, father and Mrs. S. P. Stephenson, sister of L. H. Langley, arrived today from Bingham Lake, Minnesota, and will visit relatives in various parts of North Dakota for the next month. Mr. Lantieri, a veteran one summer young and a Civil War

RAISIN IMPORTS
JUMPING SINCE
DRY ERA ADVENT

Washington, Aug. 14.—Increased consumption of raisins in the United States since the advent of prohibition is believed to account for the 1,400 per cent increase in imports of this commodity from Spain during the first six months of 1920. Nearly 8,000,000 pounds were exported from Malaga to the United States up to June 30, according to the department of agriculture's bureau of markets.

In quantity this exceeds the total raisin exports for that port for the seven year period 1913-1919, the report adds.

SUFFRAGISTS
TURN GUNS ON
LOWER HOUSEWith Victory in Tennessee Senate
They Face Determined
Fight Next Week

FIRST VICTORY IS EASY

Nashville, Tenn., Aug. 14.—Encouraged by the action of the Tennessee senate in adopting a resolution providing for a ratification of the suffrage amendment, suffragists today turned their attention to the house where they expected to face more determined opposition.

Neither house was in session today, having recessed until Monday. Suffrage advocates and opponents, however, were busy attempting to secure eleven hour pledges of support from members of the house. The house will convene Monday afternoon at 2 o'clock.

The senate voted for ratification by 25 to 4. Even the most optimistic of the suffrage forces were surprised at the large majority. Seventeen votes were necessary but most polls had listed from 20 to 22 as favorable and the high water mark was set at 24.

NEAR TEST IN N. C.
Raleigh, N. C., Aug. 14.—Leaders in the North Carolina legislature were of the opinion today that neither the senate nor the house would vote before Tuesday on ratification of the federal suffrage amendment. It was predicted that action would be taken first in the senate, and Tuesday and the resolution, already agreed by the house, where it was expected a bitter close battle would occur.

Further bankruptcy proceedings in which for the first time partners of Ponzi were mentioned, were brought in the federal court. The three petitioners were holders of Ponzi's notes for a total of \$2,526. They asked that Ponzi and John S. Dondero of Medford and Guglielmo Bertolotti of Parma, Italy, named as his partners in the Securities Exchange company, be adjudged bankrupt.

Seals Officers' Boxes
Mr. Allen said it known in connection with the closing of the Hanover Trust company that he had caused the state seal to be placed on all the safe deposit boxes in that institution used by Ponzi or by officers or employees of the bank. He said this was done as a precaution against the possible removal of securities or other valuables pending the settlement of the bank's affairs.

State House May Be Underlaid
With Lignite, Belief After Find Is Made

The state capitol may be underlaid with coal.

Workmen excavating in front of the capitol yesterday afternoon for the new memorial building struck lignite coal a few feet under the surface in the hill into which they were digging. The lignite is said to be of ordinary quality.

There was no coal in the excavation below the hill, which gives rise to the belief that the entire hill, on which the capitol is located is underlaid with coal.

SECOND PONZI
COMPANY HELD
IN BANKRUPTCY

Bank Commissioner Closes Industrial Association, Saying Cash Is Gone

FOUR ARE UNDER ARREST

Get-Rich-Quick Schemes Result
in Rush of Depositors
to Get Money

Boston, Aug. 14.—Bank Commissioner Joseph C. Allen today took charge of the affairs of the Pollis industrial association conducting a private bank at 87 Cross street in this city. Henry H. Chielinski, President of the Hanover Trust company, the chief depository of the Charles Ponzi, which was closed last Wednesday by the commissioner is president of the industrial association.

Bank Commissioner Allen said that the loan of the association were either bad or of doubtful value and there was virtually no cash left. He said his affairs were hopelessly interwoven with those of the Hanover Trust company. The capital of the association is \$13,775,000 and it had deposits of about \$350,000.

Four Behind Bars
Four men who have accepted millions of dollars from New England investors in the last few months, on promises of payment of fabulous interest, are behind the bars.

Ponzi, whose spectacular financial dealings have made his name known the country over and three officers of the Old Colony Foreign Exchange company were arrested, taken into the municipal court and held on \$50,000 bonds each on a technical charge of larceny of \$500 from persons unknown. In default of bond they spent last night in jail. They are Charles M. Brightwell, president and treasurer of the concern; Fred Meyers, sales agent. All three pleaded not guilty.

Samuel Zorn was arrested at his home in the Dorchester district last night on a warrant charging larceny of \$500 from persons unknown. This was the same charge upon which the three officers of the Old Colony Foreign Exchange company were arrested earlier in the day.

Dealings Also Large
That the activities of this company might have rivaled in extent the dealings of Ponzi's Securities Exchange company was intimated by Albert Hurwitz, assistant district attorney of Suffolk county, when he told the court that the amount involved in the transactions probably would be shown to be hundreds of thousands of dollars. It was upon this representation that he asked that the bonds be set at a high figure. The three men will be given a hearing on Aug. 24.

Further bankruptcy proceedings in which for the first time partners of Ponzi were mentioned, were brought in the federal court. The three petitioners were holders of Ponzi's notes for a total of \$2,526. They asked that Ponzi and John S. Dondero of Medford and Guglielmo Bertolotti of Parma, Italy, named as his partners in the Securities Exchange company, be adjudged bankrupt.

Seals Officers' Boxes
Mr. Allen said it known in connection with the closing of the Hanover Trust company that he had caused the state seal to be placed on all the safe deposit boxes in that institution used by Ponzi or by officers or employees of the bank. He said this was done as a precaution against the possible removal of securities or other valuables pending the settlement of the bank's affairs.

RATE RAISE IS HELD PROBABLE AFTER HEARING

State Commission Believed to Regard Railroad Petition Favorably

CLAIM EARNINGS SMALL
Railroads Represent They Make Less than One and One-Half Percent in State

Railroad rates of North Dakota probably will be raised 35 per cent to a level of the interstate freight and passenger rates effective August 25 and 26.

This was indicated by members of the railroad commission following the hearing on the petition of the railroads for an increase commensurate with the interstate increases, which ended late yesterday. Commissioner Dupuis was the only one of the three railroad commissioners present during the first day and a half of the hearing, being joined by Commissioner Mithollan yesterday afternoon. No statement of what the order of the commission will be was forthcoming, however.

The railroads ask that the increase be put into effect not later than September 1, so they may be included in new tariff schedules to be issued.

State Law Provisions
The state maximum freight law, passed by the Nonpartisan league legislature in 1919, lowering state freight rates approximately 25 per cent, which never became effective because it was passed while the roads were under federal control, will be a dead letter, it was indicated. Rates as asked by the railroads

would be approximately 60 per cent higher than the rates prescribed in the maximum freight law.

Shippers, whose chief representative at the hearing was Richard E. Wenzel, of Grand Forks, secretary of the employers' association of North Dakota, were informed that if the commission approves the new rates it will be empowered to entertain complaints for adjustment. Railroad representatives declared that one of the intentions of the new Each-Cummins act is to iron out the disparity existing in interstate rates.

Shippers' Position.
Mr. Wenzel had taken the position that any increase should be based on the maximum freight law, because he said, North Dakota rates are higher than those in South Dakota and Minnesota. If the 35 per cent increase in freight rates is granted in both states, Minnesota's rates still will be 40 per cent lower, he said. There was little cross-examination during the testimony presented by railroads by representatives of the railroad commission, who indicated they believed the evidence presented by the railroads to be correct.

Income Law.
The railroad attorneys told the commission that the income of railroads operating in North Dakota upon the property in the state was less than 1 1/2 per cent. The government guarantee is 6 per cent. This per cent as income was based upon the railroad figures as to the value of the railroad property.

NEW CHARGE IS FIXED FOR TWO UTILITY RATES

(Continued from Page One)

Steam heat—First 100,000 pounds of condensation 80 cents per 1,000 pounds; next 200,000, 75 cents; next 300,000, 70 cents and all over 600,000 65 cents per 1,000 pounds.

City Mail Rates.
The company is authorized to put into effect Sept. 1, 1920, the following increase in rates for services now under contract as specifically provided for in the following rates: Lighting for city hall, fire hall and city offices; for the first 100 kilowatt hour, 11 cents per kilowatt hour; next 100, 10 cents; next 100, 9 cents; next 100, 8 cents; next 100, 7 cents and all over 500 kilowatt hours, 6 cents per k. w. h.

Electric service to Northern Pacific shops and yards in Mandan—3 1/2 cents per kilowatt hour for all service as metered at the transformer station in Mandan.

For passenger and freight stations N. P. in Bismarck—Regular lighting rates. N. P. are lights—\$3 per are light per month.

Steam heat to N. P.—Regular authorized rates. Electric rate to Bismarck Water Supply company for pumping water to reservoirs of company, 3 cents per k. w. h. for all service.

"Any and all other contracts for electric service and for steam heat service shall be at the regular rates per kilowatt hour for electricity and 1000 pounds of condensation," says the order.

Against Free Service.
The order sets out that the company operates under a franchise of 25 years from Aug. 10, 1900 in addition to the customary provisions, says the commission's order. It requires that the electric company shall furnish electric current to light the city hall, engine house and city offices without cost to the city and it shall furnish street lighting on a basis and rate to be made by agreement with the city.

The amount of free service given the city from July, 1916, to the same date in 1917 was \$619.19, the commission says. It continued to increase until during the past year it was \$756.98.

The expense of furnishing this free service is at present borne by the users of electric light and power service," says the commission's order. The commission says that for the city to receive free service puts a burden on other consumers of electricity and power, because they must eventually pay for it.

In the opinion of the commission it is much more fair and equitable for the city to make payment for such service and provide for meeting the expense of such service from the taxes, which are considered equitably distributed and fairly among all citizens," says the commission, adding that the practice of giving free

CHICAGO GRAIN

Chicago, Ill., Aug. 14.—Wheat red No. 2 \$2.56. Corn mixed No. 2 \$1.60 to \$1.62. Oats No. 2 white 74c to 75c. Oats No. 3 white 71 1/2c to 73 1/2c. Rye No. 2, \$2.04. Timothy seed, \$9.00 to \$11.00.

service to municipalities is being discontinued over the country.

Contract rates have been accorded the Northern Pacific railway company, from which the Hughes Electric company leases the site of its plant, and this is ordered discontinued and regular rates charged. The same is true of a contract with the Bismarck Water Supply company.

Valuation of Plant.
The valuation of the company is given by the commission as follows: Present value \$331,959, of which \$275,571 represents the cost of reproduction of the electric utility, and for the steam property, cost of reproduction, \$103,692, with a present value of \$90,986.

The case on which the order is based is styled Edward G. Patterson et al vs. the Hughes Electric company.

The commission, in a lengthy statement, says that the complaint of poor service was investigated by tests in the McKenzie hotel and other places. It asserts that the service was found to be adequate. **Complaints Made.**
The commission says that after receiving a complaint in another case as to a bill for service it investigated and found that the McKenzie hotel and some others, tapped live steam from the pipes, which, it asserts, was a discrimination against the electric company. The commission also held against the complaint in another matter in which he wished charges based on the combined reading of the McKenzie, Soho hotels and Patterson hall. The commission held that if separate meters are used separate charges should be made; if one meter is used, the consumer may receive the benefit of one reading of the entire amount.

There are 14 typewritten pages in the document of the commission in the order.

HEAD CRUSHED, MAN PICKED UP ALONG TRACKS

Murder Is Suspected by Morton County Officials Following Discovery

Mandan, Aug. 14.—The body of an unidentified man was found this morning by a section gang near Sweet Briar along the Northern Pacific tracks, 12 miles west of Mandan. He had a timetable on which was written, "Elmer Stevens, Staples, Going East."

His head was crushed, as though hit with a club or coupling pin. Coroner Kennelly brought the body to

SERVICE GARAGE

Now open for business. Guarantee good work. Repair all makes of cars.

T. J. JONAS
PROPRIETOR

ONE-HALF MILLION BUILDERS OF GOOD WILL

Dodge Brothers business has just reached and passed another milestone in its history.

In a little over five years more than one-half million Dodge Brothers Motor Cars have been placed in the hands of owners.

If this sales record represented the appeal of a price, the total would not be particularly impressive.

The important thing is that the car is not thought of in terms of price, but in terms of value.

How often you hear the car spoken of—and how seldom the price!

It is the quality of thought that surrounds it which makes this success noteworthy.

Because people think well of these cars, it is still impossible for Dodge Brothers to build enough of them.

Seldom has there been a finer example of the force of friendly thoughts.

It is an inspiration and an encouragement to build well—because the reward, in America, is so great and so sure.

With nothing but good will toward them in American homes—how could Dodge Brothers do less than they have done?

Nothing has checked or hindered for so much as a single week, the continued bestowal of this recognition and reward.

The eagerness to own the car is greater today than it ever has been.

The reason is not far to seek.

Take first the mere numerical ownership.

Remember that the satisfaction of one-half million owners is not casual, but deep and profound.

Multiply them by the average family of even three.

Remember that all of these are warm friends.

Then think of that leaven of thought leavening the whole mass.

You will begin to understand, then, why Dodge Brothers have been building new buildings ever since the business began.

You will understand why the works in which the car is built are still steadily spreading and expanding.

You will get an idea of how much men can do when the homes of America are solidly behind them.

BISMARCK BANK

Bismarck North Dakota

REPORT SHOWS OATS ARE BIG CROP OF YEAR

Harvest On Over Northwest;
Wheat Now Being Market-
ed at Elevators

DURUM WHEAT NOT HURT

Minneapolis, Minn., Aug. 14.—The weekly crop report issued by the Van Dusen Harrington Co. today gives crop conditions as follows:

"Since last week the weather has been hot and dry. The southern territory has been favored with local showers which have been of great benefit. Nearly all small grain is cut in the southern part of the four northwestern states, and threshing is under way. Harvesting is now general in the north. The late crops have undoubtedly been hurt during the past week by heat, drought and rust. Regardless of unfavorable weather for rust, it has continued to damage the grain. We have reports from a number of districts stating that fields of late wheat will not pay to cut.

24,000,000 Decrease.
The August 1 government estimate of the spring wheat crop for the four northwestern states is 174,180,000 bushels. This is about 24,000,000 bushels less than the July 1 estimate. Most of this loss has occurred during the past two weeks by hot weather and rust.

"In some places wheat is of good weight and excellent quality, while in others it is badly shrunken but of good milling value. New wheat is now being marketed at country elevators. We have reports of threshing being stopped for lack of steam coal. This situation unless relieved will delay the movement of the new crops.

"We believe that durum wheat has been only slightly affected by rust, and the general quality is reported very good.

"Corn throughout our territory needs rain. In some of the northern districts where the acreage is light, it has been considerably damaged. In the heavy corn districts of the south the crop has a very fine prospect, and recent showers have greatly benefited it.

Out Crop Very Good.
"Oats is the best small grain crop in the northwest. With the exception of a few dry places the yields are good and the quality and weight are much better than last year. In western North Dakota and Montana the crop will be small because of the light acreage and unfavorable weather.

"Barley has not developed as favorably as oats. Some of the threshing returns show barley of good weight and quality. In other places it is very spotted and of light weight, so that there will be considerable range in the crop.

"Flax has lost to some degree its condition of a week ago, due to the hot, dry weather. There are reports of a few flax fields drying up. The condition, however, in South Dakota, Southern and eastern North Dakota and Southern Minnesota, is only slightly under that of a week ago. With a continuation of the present hot, dry weather, we may look for a further decline in the flax condition."

TELEPHONE COS. PROTEST RULING ON THEIR TAXES

Two Street Railway Companies
Appear to Complain of
Assessments

Representatives of telephone companies in the state, who complained of state tax assessments, appeared before the state board of equalization today. The board will hear in session Monday and Tuesday, hearing complaints of telegraph companies on Monday, and railways, express companies and the Pullman company on Tuesday.

Only two companies appeared yesterday afternoon at the hearing on valuations on street car line property. The Grand Forks Street Railway company asked a 10 per cent reduction over its assessed valuation of \$96,000, which included the property on which the car barn is located. The company represented that excessive depreciation and erroneous values entitled it to a reduction. Owners of the line in Valley City which runs to the Soo station also asked a decrease.

CROSS COUNTRY HIGHWAY SIGNS BEING PLACED

Detroit, Mich., Aug. 14.—Before next winter comes, enameled steel markers will have been placed at every confusing turn and cross-roads on the Lincoln Highway from New York to San Francisco, making what is said to be the longest highway in the world with such guide marks, according to announcement from headquarters of the Lincoln Highway Association here.

The road from Omaha to San Francisco already has such markers and work of marking the highway from New York to Omaha now is in progress. The task should be completed some time in November, it is reported.

The Lincoln Highway is 3,223 miles long. It passes through Philadelphia, Pittsburgh, Canton, O., Port Wayne and South Bend, Ind., Clinton, Ia., Omaha, Salt Lake City, and Carson City Nev., among other points.

The highway never has been permanently marked between New York and Omaha. Travelers hitherto have been guided by painted markers stenciled on telegraph and telephone poles, but this method was found to

What Is There Left For Essex to Prove

Note the Range of Its Nation-Wide
Performances All Made in One Week

These performances show what to expect of the Essex you will get. They are not a surprise to the more than 40,000 Essex owners, although their equal in so many instances was never shown by any other car. Some of the hardest tests were made by Essex cars that had already traveled over 35,000 miles—equivalent to 7 years of average driving. Some were on original tires that had done from 15,000 to 20,000 miles. Many were owner cars—owner driven—taken without special preparation from their ordinary day-to-day work, to break the speed, reliability and economy marks of their localities. Women piloted some of the runs that showed as high as 28 miles to the gallon of gasoline. They set new marks for fast time over long-distance driving where men with many cars hesitate to venture. Is there any important car quality left for Essex to prove?

ECONOMY

With 49 cars in every type of performance of from 5 to 72 miles per hour and over all kinds of roads the average was 18.9 miles per gallon. 24 cars were sent on an average 216-mile economy run in Connecticut, some over mountains and others on a level course, averaging 18.7 miles per gallon. One car with 35,000 miles service averaged 21.2 miles per gallon. A Hastings, Neb., woman drove 109 miles to Lincoln averaging 25 miles per gallon. Four women drove from Los Angeles to San Francisco and return averaging 22.3 miles per gallon and another Essex made the round trip between the two cities, 846 miles, with an average of 23 miles per gallon.

RELIABILITY

Reliability which is a larger factor in car economy than even gasoline mileage, was proven in every locality in non-stop motor performances and in long-distance inter-city runs. An Essex which had seen 16,000 miles service was driven from Columbus, Ohio, to Washington, D. C., 408 miles, in 11 hours, 40 minutes. Another Essex that had set the best time between Boston and Fort Kent, on the Canadian Border, made four round trips within a week, totaling 4,052 miles. An Essex which had previously gone 28,000 miles made a round trip between San Francisco and Los Angeles over a route of grades and mountain passes, frequently far from water supply, with its gear shift levers, hood and radiator all sealed. It averaged 22.8 miles per gallon.

Literally hundreds of tests like these were made in all parts of the country. What they reveal is exactly what you may expect from the Essex you buy. Can you place equal confidence in any car that has not so vividly established its performance?

R. B. LOUBEK MOTOR CO.

BISMARCK, NORTA DAKOTA

WATCH the ESSEX

be inadequate, as painted guidance was quickly obliterated. Expense of marking the road from New York to Omaha is estimated at \$20,000.

The signs are carried on motor trucks. Two university of Michigan students are going over the road and placing the markers.

During 1919, 26,000 fur skins were shipped out of Nova Scotia.

JOSEPH BRESLOW, Druggist

Five million dollars will be spent this year in improving the main highways of Canada.

Nearly 18,000 former service men and women are being cared for in U. S. hospitals.

German shipbuilders have bought 4,000,000 tons of American shipbuilding steel.

SISTERS JOIN IN GREGORIAN MEETING HERE

Instructions in the Music of
the Church Given Sisters
of Community

The Gregorian convention of this diocese of the Catholic church has been in session here during the past week. The Sisters of the various communities of the Bismarck diocese have responded to the call of the Rt. Rev. Bishop Wehrle and assembled at St. Mary's school for the purpose of further informing themselves on the music of the church.

The beauty of the sublime strains of the Gregorian chant, which was presented to the convention by the Reverend Dr. Jno. A. H. Slag of this city, received the praise of all who heard it.

Work of the Convention
The work of the convention consisted chiefly in instructions on church liturgy, interpretations and artistic rendition of the Solemes Version (with the Roman pronunciation) of the official music used in the Catholic church services.

Another enjoyable and instructive feature of the program consisted in the contrasting of Reverend Father's artistic and masterful rendition of the Solemes style with that of the Bismarck school as given by a renowned choir.

Round Table Talks
Informal round table discussions enabled the members to exchange ideas and clear up doubtful matters.
On Thursday High Mass was celebrated by Very Reverend M. Hiltner, U. G., during which the "Proper"—Cibavit—and the "Common" of the Mass de Angeli were rendered under the immediate direction of Dr. Slag.
At the conclusion of the session Rt. Rev. Bishop Wehrle expressed his appreciation to all who made the con-

vention a success and outlined plans to stimulate rivalry between the various parishes.

The members here expressed their sincere gratitude to Father Slag for his work in raising the tone of the church music.

CHURCH NOTES

Presbyterian Church
Morning services at 10:30 a. m.
Rev. Geo. B. Newcomb will preach.
Mr. Halvorson will sing.
Sunday school at the usual hour.
There will be no evening services.

First Baptist Church
There will be service at the First Baptist church Sunday morning at 10:45.
Rev. Oscar S. Jacobson will preach.
The Sunday school will meet at 12 o'clock.
No evening service.

Second Baptist Church
Sunday, August 15, 1920.
At 11:30 a. m. preaching by Pastor D. E. Bensly.
At 4:00 p. m. preaching by Rev. Jacobson of the First Baptist Church.
Sabbath school at 12:30.
There will be no evening service at 8:00.

Swedish Lutheran
E. F. Alfson, Pastor.
Corner Seventh St. and Avenue D.
Morning services at 10:30.
Sunday school at 12:00 m.
The choir from the Swedish Lutheran church at Wilton will give a program in the evening, commencing at 8:00 o'clock.
All are cordially invited to attend the services.

The McCabe Methodist Church
The Rev. Leslie Burgum will preach at both the regular services morning and evening.
Sunday school at 12 o'clock, classes for all. A. A. Loerke, Supt.
Epworth league at 7:00 p. m.
Visitors and strangers welcomed at all services and asked to attend the Sunday school.

"SQUINT" SPOILS THE PRETTIEST FACE; SO PROTECT YOUR EYES

An eye-cup and a good cold cream are needed.

The Eyes, Brows and Lashes
Should Have the Same Daily
Care as the Teeth, Says Beauty Expert

BY BARBARA BURKE.
(Editor of "Beauty Culture")
The eyes—"windows of the soul," probably the most important of the special senses, serve a purpose at once so artistic, so enhancing, so useful and almost indispensable, that too much care cannot be given to them.

A beautiful eye is one that is full and clear, brilliant, appropriate in color to the complexion, and with the eyelids, eyelashes and eyebrows in keeping.

Eyes Should Have Daily Care.
It is strange how the daily care of the eyes is so much neglected. As far as possible one should avoid exposure to dust, irritating rays, vivid light, undue strain and fatigue, all of which are enemies of the eyes and eyesight. In summer time particularly, the utmost care must be exercised so as not to acquire a squint from the glare of the water or the strong rays of the sun. This not only affects the charm of the eyes but it is the fundamental cause of deep, unsightly lines which it allowed to remain, will develop into permanent wrinkles. Therefore, never go on the water beaches, and be sure to wear something that keeps the glare from the sight.

A most important duty is the regular washing. To do this properly a small eye-cup should be employed using a weak solution of boric acid and water. Be sure that the water is neither too hot nor too cold. It is a great mistake to douch the eyes with ice water as one is apt to do in warm weather. In fact, it is at times injurious to the sight. In drying, use a soft piece of linen some old handkerchiefs, for instance, in preference to a heavy towel, and dry gently, never rubbing the eyeball which has a tendency to make the eye set too far back in the socket and often leaves a strained effect.

How to Care For Brows.
A good skin food gently rubbed under the eyes before retiring will eradicate high lines and do a great deal toward shaping the general contour of the face. It should also be well massaged between the brows, so that any lines that may have been slightly formed, will be well nourished and rubbed out.

Well defined lashes and brows play a very important part in one's attractiveness. To do this properly the same daily attention that one gives the teeth. It must be remembered these delicate little hairs are exposed to all freaks of climate, and when nothing is done to strengthen them, sometimes a most charming face loses its pleasing expression through nothing but neglect.
The beauty of the lashes consists in their length and silkiness. The practice of trimming the lashes is only beneficial when done by an expert. Never allow any one to just cut them. The eyebrows should be well arched and extended in graceful curves. Brush them daily, always in the direction of the hair with a small soft brush.

A harmless and beneficial treatment to strengthen these hairs has been added a weak solution of boric acid. This should be applied before retiring with a fine camel's hair brush or the tip of the little finger the motion being slow but not vigorous as to wear off the hair. Remember it is the roots not the tips of the lashes that are to be massaged, stroking gently from the outer corner of the eye inward toward the nose.

Beulah Girl Dies
Lucille D. Keogh of Beulah, 13-year-old daughter of James Keogh of that city died at St. Alexius hospital here this morning. The body was sent to Beulah today.

SIXTEEN TAKE EXAMINATIONS FOR TEACHER'S CERTIFICATES

County Superintendent Holds
Quizz for Candidates Covering Many Subjects

Sixteen applicants for elementary teachers' licenses appeared before W. E. Parsons, county superintendent of schools yesterday and took their examinations.

Those seeking permission to teach in the schools of the state ranged in age from 17 to 60, married and unmarried, but they were all women.

They were seeking to obtain the elementary certificates and it is rather interesting to look over some of the questions asked them.

For example the examination in physics included the following questions: "Give directions for working and reporting a laboratory exercise entitled 'Three ways of finding the density of gasoline.'"

Of course that's easy and doesn't puzzle anyone, but listen to the next query: "Name the kinds of glue and give directions for the use of each. How do you use glue?"

Try this at Breakfast.
Tomorrow morning at breakfast you might try this little suggestion: "Analyze very carefully the sensation complex that a person has when he drinks a cup of coffee and name the end organs that are affected by each part of the complex."

When you have finished sipping

coffee, in your idle walk to the office, "Give the life history of a sinking smut of wheat" and then give three ways in which you may distinguish monocotyledons from the dicotyledons."

Teacher's Easy Job.
Teaching a country school looks like a simple job, but these are only a sample of the questions the candidates were asked to determine their fitness for the work. The questions for the examinations are prepared by the state board of administration.

Those who took the examination included Marie B. Ulmar of Driscoll, Rose Springer of Bismarck, Inga Olsen, of Almont, Mrs. Sarah Moffitt, of Baldwin, Selma Miller, of Almont, Flora MacDonald, of Glencoe, Mrs. Carrie Johnson, of Wing, Mary M. Baure, of Garrison, Sylvia Brechtel of Bismarck, Jennie Brown, 215 Anderson street, Bismarck, Nora Buckley of Glencoe, Rita C. Conway, of Bismarck, Mrs. Nettie Farley of Wing, Hildur Garanson, of Wilton, and Agnes Gray, of Wilton.

U. C. T.
There will be a regular meeting of the U. C. T.'s tonight at Elks' Hall. All visiting U. C. T.'s are cordially invited.—A. E. Brink, St. Coun.; J. L. George, Sect.

Will pay premium to rent, furnished or unfurnished house or apartment by

THE STATE'S OLDEST NEWSPAPER
(Established 1878)

A SORRY SPECTACLE.

North Dakota must realize more poignantly than ever the kind of management to which its government is intrusted following the latest Lemke-Townley-Brinton-Waters expose.

None of the parties to the controversy retire with any credit. It is just a sample of political laundering which while not particularly edifying from any standpoint is typical of the way the soviet regime operates.

The anti-Townley organization is interested in the fracas only because in many ways, the exposure merely substantiates the charges made by Langer, Hall and Kositzky in their campaign against the entire organization, Brinton and Waters included.

After columns of political scandal and intrigue are sifted, the net conclusion is that the nonpartisan league pie counter has shrunk a little and that Brinton and his associates slipped off the end seats.

It is the moth-worm story of the political flesh pots. Loyalty in league circles seems to start with the dollar sign. Certain gentlemen who were manipulating the political cash register have been supplanted by other experts on that machine. The same little bell tinkles out its periodic touches, but the coin drops into other pockets—that is, the jobs that once were Brinton's and Waters' are now held by Lemke, Cathro and their associates.

The whole affair simmers down to one of political head-hunting. One faction demands the scalps of Lemke and Cathro, while Lynn J. Frazier, who is an absolute dictator under the industrial commission law, refuses to decapitate his faithful henchmen, among whom is "Bill" Lemke.

The organizations which have been fighting Townleyism can have little interest in the affair from a political standpoint. As far as the independent voters are concerned, the defection of Brinton and Waters is merely a squabble over patronage. The motives which actuated both parties in the exposure are too evident for comment here. When the ghouls quarrel over the spoils, just men may get their dues, but the voters who have been fighting the red menace in North Dakota for the last four years are not going to the Brinton faction for a Moses.

This exposure may be the first batch of dirty linen to be publicly exposed. We may expect a fresh washing on the line frequently from now until the fall campaign.

"DON'T HAVE TO"

In an essay entitled "Is Life Worth Living?" William James asked:

"What can be said to help a man to whom life is such a nightmare that he feels on the verge of suicide?"

His answer is that the man will begin to get relief when you convince him that he is free to kill himself if he wants to. For when anyone once realizes that he does not have to live, much of the burden of life is lifted, and he is willing to postpone the day of death until after he has read the news in tomorrow's paper. He can live and endure things because he doesn't have to.

The principle applies in many ways. A thirteen-year-old boy is absorbed in his own affairs and when his mother asks him to mail a letter he stamps around in rage at the interruption, for he feels that he has to give up his own grand schemes to do the trivial errand. But when his mother says "It is all right, boy; I thought you could do it on the way to school; but I could do it myself this evening" he feels ashamed and wonders why he raged. He doesn't have to do it, and it seems a very trivial favor. He'd have done it for anybody else with pleasure.

The boy is beginning to organize life for himself, but he has the habit of obedience, which makes every request from his mother seem like an intruding have to. He bursts out in a spirit of rebellion. But give him a chance to learn that no one is trying to boss him, and it won't be very long before he will work his fingers off for that same little mother and rejoice at the opportunity. "Don't have to" is on the road between "Have to" and "Want to."

A barrage of cigaret smoke by the Turks doesn't keep the Greeks back!

Tokyo restaurants have put frogs on the menu. The Chinese take their hop in another form.

Goldfield, Nev., lost 67 per cent population according to the census. House-hunters will appreciate this as there must be a lot of vacant homes there.

One-piece bathing suits aren't popular with the women who are not built that way.

One can't blame Poland for taking a little hell-sheviki rather than turn Bolsheviki.

Now that labor and owner have both been raised, those railroad jams should soon jell.

A dollar's worth of that porcelain money that's being made in Saxony would be useful as butter plates.

When the Soviet army crossed the Bug River it opened a way to much interesting comment about 869 puns.

The Department of Justice continues to warn the profiteers that it is not bluffing. Why the change of policy?

Those earthquakes in Los Angeles were probably staged by "Fatty" Arbuckle to tear up a few houses in a comedy.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

FOSSIL RELICS OF AGES

The first forms of life appeared on this earth 45,140,000 years ago, according to Dr. Charles D. Walcott of the Smithsonian Institution, who has just discovered several thousand fossils that contradict all previous deductions.

The find was made in the Burgess pass fossil quarry, discovered in 1910 in the Canadian Rockies, about 3,000 feet above Field, British Columbia.

Professor Walcott has taken annual parties into this district, says the Detroit News, blasting fossils out of what is known as the Cambrian rocks. When the large slabs were blasted loose they were split with chisel and hammer and fossils of animals were exposed that were, in life, softer than the jelly-fish.

The shale bed suggests that the waters of the ancient Cambrian sea swarmed with life, just as the ocean does today at Santa Catalina Island. But this was long before the advent of fish on earth and no trace of fish is found among the fossils.

The find upsets the theory that in the preterozoic age only one-celled amebae, etc., existed on the earth. Instead of only unicellular animals, there were actual swimming and crawling water forms of animals already dominant.

Professor Walcott estimates that fossils of these animals were engulfed about 27,640,000 years ago. He adds to this figure 17,500,000 years during which these and other creations were evolving from each other in the prepaaleozoic period. —San Francisco Chronicle.

A FRANK CONFESSION

WANTED — NONPARTISAN high school teacher and one for 7th and 8th grades. Only Normal graduates will be considered. State qualifications, experience and salary in first letter. T. G. Glesne, Clerk, Bergen, N. D.

—Want Ad in Sunday's Courier-News.

At least Mr. T. G. Glesne, the clerk of the school board at Bergen is to be commended for his frankness.

He believes that the way to get a "Nonpartisan high school teacher" is to advertise for one.

He believes that if the Socialist gang is going to turn the schools of the state into a political machine, the way to do it is openly.

He doesn't believe in beating about the bush. "Catch 'em young" is evidently Mr. Glesne's motto. He has no foolish notions about "keeping the schools out of politics." It is surprising that he does not prescribe some religious qualifications for the new teacher, also.

And what about the curriculum of the Bergen high school? Will copies of the Nonpartisan Leader be used as a textbook? For a course in English, they doubtless would prescribe a study in the Courier-News editorials clipped from the Wisconsin State Journal of Madison.

For the "major" course in ethics, they might prescribe Mr. Waters' well known formula of how a banker should act when he is embarrassed with too much worthless paper—"shoot it to the other league banks"—or might even use as the motto for the ethics class, Mr. Townley's famous advice to "go home and lie like a horse thief."

The class in Americanism could study the reports of Mr. Townley's trial for seditious conspiracy.

The class in finance could study the methods by which Mr. William Boycott Lemke acquired a newspaper and a string of stores by being a "friend of the farmer."

"In advertising for 'Nonpartisan high school teachers', this school board clerk is merely carrying on the work of dragging our schools through the political mire. There is just one way to defeat the plan, and that is at the polls. If the voters haven't lost their capacity for indignation, they will surely resent this brazen attempt to make our school system a political machine, and to introduce Socialist teachings into the school curriculum." —Fargo Forum.

TO GET THE BOYS OUT OF THE TRENCHES

They may not be able to do it before Christmas, but they will shortly after March 4th

AUDITOR'S OFFICE ATTACKS THE BANK OF NORTH DAKOTA TODAY

Finish Fight Is Expected—the Two Baseball Teams Are In to Win, They Say.

Extra! State Auditor's office makes vicious attack on Bank of North Dakota!

Nope, its not politics—just baseball. This afternoon, at capitol park, employees of the state house, headed by men from the Auditor's office, are playing baseball with the employees of the Bank of North Dakota.

The baseball bug has caught the state employees right. In fact, druggists report the sales of soothing lotions, liniment and bandages has increased wonderfully during the week. Many an employee at the capitol, seeking exercise on the ball grounds, is nursing a sore arm or a "charley horse."

Modest, But Then—It was all started by W. G. Woerner, deputy auditor. He's generally pretty modest but—well, if a man's a good ball player why shouldn't he let others know about it. So Woerner organized the Capitol Baseball association. He nosed around a bit, and pretty soon he had a long list of eager men from the various offices around the state house who expressed a willingness to desert the 5:05 p. m. car and cavort a while on the ball diamonds.

The first game, played the other evening, was a corker. One of the teams won 47 to 32. As a precaution an adding machine was on the field this afternoon, because there were some of the men who played the other evening who believe they were cheated out of a dozen runs or so.

The Best Base Runner. The game abounded in spectacular plays. None was more remarkable than this. There was a man on first and a man on second. The batter drove a vicious clout to right field. The two base runners started. The man on first was faster than the man on second and he beat him to third. So the base runner, who had been on second turned around and ran back to second. "Everybody's safe," yelled the umpire.

Auditor Carl Kositzky who, by the way, is an old ball player, got into the game. Art Young, deputy state treasurer, Homer Bowers, Homer Ganz, Jim Curran, Jim Madland, and Roy Kositzky, were among the others who participated.

CUTICURA HEALED ITCHING ECZEMA

In Blisters on Face and Ears. Disfigured. Could Hardly Sleep.

"Ever since I can remember I have been troubled at times with eczema on my face and around my ears. It broke out in a rash and later turned to itches and formed scales. It itched and burned so I could hardly sleep, and I would wake up in the night scratching, which caused disfigurement."

"Other remedies had been used with no success, but after using three cakes of Cuticura Soap and two cakes of Cuticura Ointment I was healed." (Signed) Miss Lela Gates, Box 105, Dunlap, Ill., July 23, 1919.

Having cleared your skin keep it clear by using Cuticura Soap and Ointment for daily toilet purposes. The Soap to cleanse and purify, the Ointment to soothe and heal.

—Cuticura Talcum Powder—

Do not fail to test the fascinating fragrance of this exquisitely scented face powder, dusting and skin-perfuming powder. Delicate, delightful, distinguishing. It imparts to the person a charm incomparable. It is peculiar to itself. Sampled Cuticura Soap, Ointment and Talcum free by mail, address: Cuticura, Dept. R., Malden, Mass.

HEALTH ADVICE

BY UNCLE SAM, M. D.

Health Questions Will Be Answered if Sent to Information Bureau, U. S. Public Health Service, Washington, D. C.

Feeding Your Children.

Q. Your candid opinion as to the feeding of cabbage, cinnamon rolls, peas, beans, corn, pie, cake, fruit sauces, nuts and pancakes to children between two and three years of age, is requested. Any helpful or interesting data in regard to the general care of a child's health of from birth to five years of age would be appreciated.

A. Milk should constitute the principal article of diet in a child of this age. Care should be observed to obtain as pure a quality of milk as possible, keep it in a state of absolute cleanliness and at a temperature of about 50 degrees F.

Very cold milk should never be given to the child, and if necessary this might be warmed before feeding, especially in cases of very young children.

The child should receive food in proportion in which the different food elements are to be found in mother's milk; namely, protein 1.5 per cent, fat 3.5 per cent, carbohydrate 7 per cent, starch 1.5 per cent, salt 0.2 per cent, other constituents 0.6 per cent, water 87.7 per cent. The amount of food required of course, will vary with the age of the child.

Fruit juices, especially the juice of oranges and strained tomato juice, are essential articles of diet from the standpoint of scurvy prevention. In all cases where the child is given pasteurized, heated or condensed milk, the juice of oranges or tomatoes should be given in proportion of one to two teaspoonfuls a day.

In the event fresh cow's milk is not available, the most excellent substitute may be found in a good preparation of whole dried milk, which usually comes in five-pound tins.

Grand Forks, Aug. 14.—A farm laborer, giving his name as David Hall and his home as Omaha, Neb., arrived here from Fargo for the purpose of obtaining work with a threatening outfit. Immediately upon his arrival he reported to The Herald that in Industrial Worker of the World agitator had made attempts to intimidate him while aboard the train for Grand Forks.

Mr. Hall told the following story. "In Fargo I was told that men were needed up here, and that higher wages were paid here than in the southern part of the state, so I made up my mind to go to Grand Forks. Half way between Fargo and Hillsboro a fellow who said his name was Bill Smith sat down beside me and showed me a few copies of a newspaper called Solidarity, he also gave me some pamphlets and handbills to read in which harvest workers were asked to join the I. W. W."

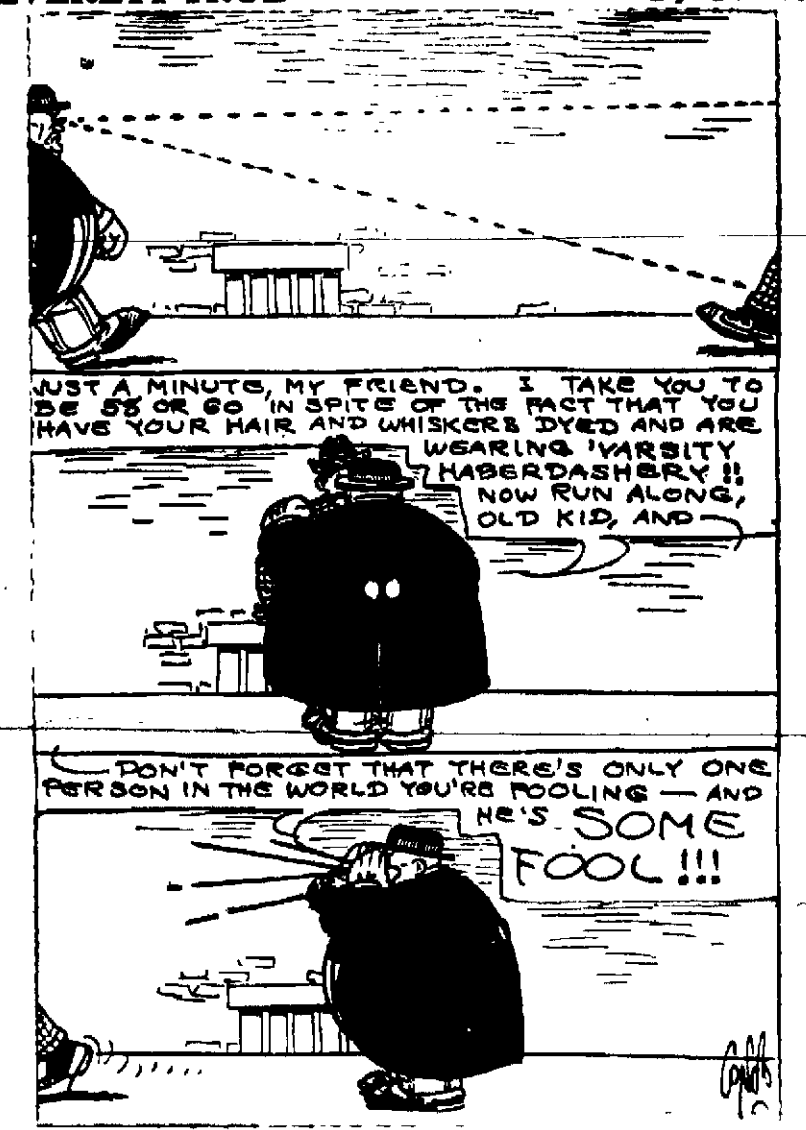

Wanted to be Independent. "I told the fellow that I wanted to be independent in my work, and he just said I was great big fool for not joining when I could easily make seven and eight dollars a day if I became a member."

Mr. Hall said that he persisted in refusing to join the I. W. W., and that Bill Smith finally told him that he (Hall) would be watched. "We've got you spotted," Mr. Hall said the agitator told him, and added that it "wouldn't be a good thing for your health to refuse to join."

The agitator finally abandoned the attempt and went into another car of the train and Mr. Hall saw nothing more of him.

"1000 CLUB" HAS UNIQUE PURPOSE

"No mystery about our school's '1000 Club,'" says F. L. Watkins, Pres., Dakota Business College, Fargo, N. D. "It is simply the 1000 pupils we'll need within a year to supply help for our patrons."

"Good jobs are plentiful. Recently the Hull Implement Co., of Edgeley, asked for a \$110 man. West W. C. Sommerfield. The N. P. R. Co. had a \$100 position open. Miss B. Hagen was sent. Trained help is scarce."

Join the 1000 Club. "Follow the Success!." Fall term begins Sept. 1. Address F. L. Watkins, Pres., 806 Front St., Fargo, N. D.

powder contains 3 1-2 per cent butter fat.

In addition to strict attention to the child's diet, avoiding carefully the use of hot bread, cakes, sweets, corn, peas, nuts and pancakes mentioned by you, due attention should be paid to the correction of any physical defect from which the child may be suffering, such as diseased tonsils and adenoids.

A child should have about 12 hours' sleep in a well-ventilated room each 24 hours, and allowed to play out of doors in the sunshine as much as possible. Late hours are to be avoided, with particular care because of the effect thereof on the child's nervous system.

Finally, the bowels must be carefully regulated. A child of two years should have from one to two bowel actions each day. If suffering from constipation, green vegetables enumerated in the list, together with fruits, will frequently overcome this condition. Furthermore, the child should be encouraged to attempt a bowel movement at the same hour regularly each day, thereby cultivating the habit of regularity which will naturally lessen the tendency to constipation.

LEAGUE URGES SUFFRAGE BILL

St. Paul, Minn., Aug. 14.—The national executive committee of the National Nonpartisan league sent a wire today to the president of the Tennessee legislature urging the ratification of the suffrage amendment.

"The Nonpartisan league does not desire to dictate, but it wishes to assure you that your favorable action on that great issue would be applauded by the 300,000 members of the league."

The message was signed by A. C. Townley as chairman of the committee.

JUST JOKING

Looking Forward.

They had just become engaged. "I shall love," she cooed, "to share all your griefs and troubles." "But, darling," he purred, "I have none." "No," she agreed, "but I mean when we are married." —Dallas News.

His Object.

Townley—I see you raise your own vegetables. Subbubs—Oh, no. I simply plant a small garden so as to keep the chickens at home. —Boston Transcript.

Appearances Tell.

You haven't much on the menu, landlord. Still, it doesn't matter—my wife puts up with the best she can get.

Inn Keeper—I thought so when I saw you both come in.—Megendorfer Blatter (Munich).

Swimming Pool.

Bismarck residents who hoped the city could be able to carry out its swimming pool plan until a court decision on finances dashed hopes may envy Minot residents. During one week 1,230 people enjoyed the Lincoln park swimming pool at Minot. The pool was instituted by the Rotary club.

KLOSAGONY JAZZERS
Dance by "Klosagony Jazzers" at K. C. Hall, Saturday night.

America's Bonfire

America loses 250,000,000 dollars of her resources every year through fires alone.

If anything can show more strongly the need of adequate fire insurance on your property, we should like to know what it is.

You may think you are well insured, but are you? Consider that your property has a higher market value this year than last, and that it is increasing steadily.

Then take out enough additional Fire Insurance to cover present value. Get it here.

EVENTS AND GOSSIP FOR THE FANS

BELGIUM OPENS STADIUM TODAY FOR OLYMPIAD

Athletes of 30 Nations Parade Arena Before International Audiences.

GAMES ON TOMORROW

King of Belgium Makes Presentation to World Olympic Head.

(By Associated Press).
Antwerp, August 14.—The Olympic Stadium was opened today. It was a formal ceremony, staged with a setting of flags, banners and fluttering pennants against a background of white stone, cement and wood, with royalty, officialdom, diplomacy, fame and fashion participating in the program or represented in the boxes. But the thousands of spectators packed about the huge oval centered their interest in the actual contestants—athletes from nearly 30 nations—who paraded the arena and tomorrow will begin their tests of strength and skill.
Two flags, the German and Austrian, which flew over the stadium in the Sixth Olympiad at Stockholm, were missing and these countries, barred from participating in the meet, as were all enemies of the Entente powers in the war, had no representation either in the arena or in the diplomatic boxes. The Russian flag also was missing. Estonia and Monaco were late entries.

Speech by King
The formal ceremony of opening the stadium included addresses by the king of the Belgians, who officially presented the stadium to Baron Pierre de Coubertin, president of the International Olympic committee. There was singing by a Belgian choral society.

The cheering was continuous as the athletes, filing in from the open space just back of the stadium where they had formed, nation by nation, swung into the arena headed by the members of the International Olympic committee. They marched in alphabetical order, though the Belgians, alphabetically first in the list, took last place ceremonially, as hosts. This brought Australia first in line.

Each group was preceded by its flag, and generally speaking, each group of nationals was uniformly dressed—not in athletic togs, but in suits of uniform cut and color. Some, however, were in army or navy uniform. As they swung by the royal box, where King Albert, Prince Leopold and a group of government officials were standing, they saluted the king. Some of the athletes paid similar courtesy to the ambassadors or ministers of their nations, who had boxes all around the arena.

Americans Cheered
The American athletes, about 300 strong, were cheered frequently not only by their compatriots in the stands but by the throngs who recognized that the group marching behind the stars and stripes were among the strong contenders for victory in the Seventh Olympiad.
It seemed that there were thousands of Americans in the stands. Every soldier from the Army of Occupation who could possibly secure leave was there. Jackies from the cruiser Frederick, sailors from the American liners in the harbor and hundreds upon hundreds of tourists swelled the delegation, until, in some parts of the stadium, at least, it seemed to be a regular American crowd.

Many Nations Entered
A glance at the list of nations participating in this Olympiad gives an idea of the cosmopolitan character of the athletes and crowd: Australia, Belgium, Brazil, Canada, China, Chile, Denmark, Egypt, Spain, United States, Finland, France, Great Britain, Greece, Hungary, India, Ireland, Norway, New Zealand, Portugal, South Africa, Rumania, Sweden, Switzerland, Estonia and Monaco.
Of these, Brazil, China, Egypt, Spain, British India, Mexico and Poland did not participate at Stockholm in 1912.

Today's ceremony signified not only the formal opening of the Olympic games but the completion of a task by Belgium, which, undertaken at a difficult time in her history, seemed almost impossible of consummation.

When the International Olympic committee, in 1919, decided to award the Seventh Olympiad to Belgium, the nation, after four years of occupation by the enemy and in a crippled industrial condition, set out to construct a huge stadium and make other arrangements for the game in about one year's time.

Nevertheless, the stadium was completed in record time, having been turned over by the contractor to the Belgium Olympic committee on May 23 last.

The Stadium
The stadium is something more than three miles from the central business district of Antwerp and is reached by street railway and steam railway lines. It has been built of stone, concrete, steel and wood, with an impressive arched main entrance. Its total capacity for spectators is estimated at 40,000. It, like the tracks it encloses, is oval in shape. On two sides there are roofed "grandstands," where are located the boxes and the served seats. At the two ends of the oval, however, there are no roofs, but only a series of steps—like those of the old Greek open-air theaters—accommodating thousands of spectators standing.
The tracks are the ordinary cinder paths, while the inside arena, where

FASTEST DASHER

Much is expected of Loren Murchison, the New York A. C. flash, in the Olympic sprints. He's a 9 4-5-second century dasher. Loren quits the holes so fast that he leaves daylight between himself and his rivals the first jump. Murchison was formerly of St. Louis and prior to that was a Lone Star product. He beat Paddock in the final trials at Boston.

will be held the field events, is of well-kept turf.
The running track, oval, of course, is a fraction under 399 meters to a lap. There is a straightaway, along one side, sufficiently long for the 100-meter dash but the 200-meter race must be run on the oval. The grass field inside is 148 by 73 meters and the football ground 106 by 68 meters. There are tennis courts back of the stadium.

TY COBB JUMPS AHEAD IN RACE FOR HIT HONOR

Makes Twelve Hits in Last Six Games—Speaker Still Leads

Chicago, Aug. 14.—Ty Cobb, the Detroit star, cracked out twelve hits in his last six games, and boosted his average among the leading batters of the American League to .341, as compared with .322 a week ago. The Georgian seemed to have struck his old stride and gives promise of finishing close to the leaders. Tris Speaker, manager of the Cleveland Indians, has participated in fifty or more games, his mark of .417 which he acquired last week remaining unchanged despite the fact he played in five more games.

"Babe" Ruth, of New York, the home run king, leads in runs with 120, and is out in front in total bases with 236. He stands fourth in batting with an average of .347, being topped by Jackson of Chicago, who has 392, and Slater of St. Louis, who is runner-up to Speaker with 401. Ruth had 41 home runs up to the completion of these averages which include Wednesday's games.

Rice of Washington has not been very successful in his specialty of stealing bases on the St. Louis and Chicago catchers in the past week, but with his last week's mark of 43 thefts remains far ahead of his rivals.

Cleveland, Chicago and New York, the league leaders, are bunched in team fielding with averages of .971, .970 and .968 respectively, while in team batting Cleveland is first with .309, Chicago third with .293 and New York fifth with .284.

Other leading batters: E. Collins, Chicago, .369; Rice, Washington, .352; Meusel, New York, .351; Cobb, Detroit, .341; Jacobson, St. Louis, .337; Hendryx, Boston, .337; Weaver, Chicago, .335; Earl Smith, St. Louis, .333; Judge, Washington, .328; Felsch, Chicago, .327; S. O'Neill, Cleveland, .327.

Hornshy Stands Still
Roger Hornshy, the St. Louis star, failed to swell his average as leader of the National League batters in the past week, although he kept up the pace by cracking out eight hits in his last six games, and retained his mark of a week ago—.327. His total base record is 231, made on 151 hits which include thirty-one doubles, fourteen triples and seven homers. Eays of Boston, the pitcher-outfielder, has become the runner-up to Hornshy, with an average of .314 made in fifty-two games, compared with Hornshy's 103 games. Roush of Cincinnati is next with .332 and Nicholson fourth, with .323.
Cy Williams, the Philadelphia slugger, bagged a brace of homers in the past week and tops the circuit drive batters with thirteen. Max Carey, the fleet-footed Pittsburgher, added a pair of stolen bases to his string and is showing the way to the base stealers with 24 thefts. Bancroft, New York, is the best run-getter, with 65. Other leading hitters: J. Smith, St. Louis, .325; Konetchy, Brooklyn, .324; King, New York, .323; Young, New York, .322; Hollocher, Chicago, .318; Stock, New York, .317; Groh, Cincinnati, .316; Myers, Brooklyn, .316; Z. Wheat, Brooklyn, .313.

Win 4 Straight
Cleveland, Aug. 14.—New York did not find Friday the 13th unlucky as it won its fourth straight game from Cleveland yesterday, 4 to 3. Extra base hits were factors in all of New York's runs. The game was delayed frequently by protests against Umpire Nathan's decisions.

Both Get One
Philadelphia, Aug. 14.—C. Walker's home run in the 5th game Philadelphia the victory in the first game of yesterday's double-header with Boston, 3 to 1, but Myers held the locals to two scattered hits in the second game and the visitors won, 7 to 0. Perry allowed but two hits in the first game, but one of them was a home run by Scott which tied the score in the first half of the eighth.

Americans Take One
St. Paul, Aug. 14.—Louisville association defeated St. Paul, 6 to 2. The Saints hit Koob hard and often, but 16 home players were left on the bases.

Lowdermilk Fans 8
Minneapolis, Aug. 14.—Russell's single Wade's sacrifice, Jennings' infield hit and W. Smith's outfield fly scored the winning run for Minneapolis in yesterday's 3 to 2 victory over Indianapolis after the visitors had tied the score in the first half of the ninth. Lowdermilk struck out eight men and was well supported.

Northrop Is Pounded
Milwaukee, Aug. 14.—The locals were unable to hit Mulrennan while Northrop was pounded for fifteen hits and Columbus won the second game of the series, 6 to 1.

Rally Beats Toledo
Kansas City, Aug. 14.—Kansas City staged a rally in the last two innings and defeated Toledo, 8 to 7.

National League
New York, Aug. 14.—Fred Toney made three wild pitches yesterday, all of which figured in Brooklyn National's run and the Robins defeated New York, 4 to 2. Grimes was master of the Giants' except in the eighth, when three hits were bunched for two runs.

Pirates Lose to St. Louis
Pittsburgh, Aug. 14.—St. Louis defeated Pittsburgh, 4 to 2, bunting seven of their hits off Cooper in the seventh and eighth when they scored all their runs. Catton's error was costly in the seventh and helped the visitors scoring. Schunn was strong in the pinches and might have had a shutout except for Dillhoefer's error.

Pick Breaks Ankle
Boston Aug. 14.—Boston and Philadelphia divided a double-header. Boston winning the first game 5 to 2 and Philadelphia the second 8 to 2. Charley Pick's right leg was injured in the

How R. R. Rate Increase Will Touch Family Purse

No one can hope to avoid paying his share of the railroad worker's wages and the cost of new railway extensions and improvements, by merely refusing to travel. "Every pound of food eaten, every ton of fuel burned, every garment worn and every stick of timber entering into the construction of homes will contribute its share" to the gigantic total, reasons the Washington Post, which estimates that it means a per capita tax of \$12.00 on every man, woman and child in the country for higher freight rates alone, and perhaps \$15.00, when all the increases are taken into consideration. In view of such estimates THE LITERARY DIGEST believes it worth while to gather for its readers the views of leading authorities in various important industries on the precise effect of the new rates in their respective fields. In some cases the statements were found in newspaper interviews, in others they come in response to direct telegram and telephone queries. At any rate, this summary of opinion has been incorporated in an interesting and instructive article in THE LITERARY DIGEST for August 14th, 1920. You will wish to read it. first inning of the second game while he was sliding into third base and he was carried from the field. It is believed a small bone is broken near the ankle.

stroke at the end of the first 18 holes with 218, while Leo Diegel and Jack Hutchinson had 219, and Ray 220. Vardon increased his chances by scoring 36, one over par on the first nine of the last round, but he began to miss his shots both from the tee and on the green, taking six on the 522 yard twelfth and the 430 yard seventeenth and three fives for a 42 on the final lap.

A lot of baseball was on the week-end bill of fare for local baseball fans. Stanton was to meet the Bismarck Athletics this evening, and the team is to play Dickinson Sunday. The Capital baseball team is all set for the game with Mofit, to be started at 1 p. m. Sunday at Capital ball park. Both teams and the local fans are offered a good game.

Leaves for Minneapolis. Dr. C. E. Stackhouse leaves Sunday for Minneapolis. He will make

the trip by automobile and meet his wife and children at Minneapolis. They have been spending the last six weeks in Michigan.

Did you know that ninety per cent of all human ailments depend upon the condition of your blood? You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the blood supply pure and robust.

For this purpose, no remedy can equal S.S.S., the fine old blood purifier that has been in constant use for more than fifty years. Get a bottle of S.S.S. at your drugstore today, and note how promptly it gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, Swift Laboratory, Atlanta, Ga.

YOUR VALUABLES ARE WORTHY OF THE BEST PROTECTION

Every person who has in his possession important papers or valuables should rent a Safe Deposit Box in the fire and burglar-proof vault provided by this bank, thereby procuring the best protection against loss.

Our Vault is one of the most modern and thoroughly equipped, and box rentals range from \$2.50 and upwards per year.
